

## Ashton Bentley exhibit at The Facilities Show 2014, Stand L1100

Ashton Bentley are pleased to have been invited to exhibit by reseller Digital Visual Communications at this year's Facilities Show.

In its 15th year, the Facilities show has grown to become the world's largest dedicated facilities management event. Dedicated to providing facilities managers from all sectors with a comprehensive package of information and networking opportunities.

We will be showing our Media Connect and Solo 46 audio-visual presentation environments. Both providing fast and non-intrusive deployment in any corporate meeting room space.

The Media Connect is a stylish three person integrated presentation and videoconference collaboration environment. Supplied complete 'out of the box' with integral table, the system is quick and easy to deploy being set to work without tools in less than 60 minutes.

The Media Connect provides a simple to operate, large screen (55"), ergonomic professional audio-visual solution complete with an optimised table with integral laptop connectivity and control unit.

All Ashton Bentley systems come complete with a full set remote management tools providing real time status monitoring, fault indication and remote control. This enables estate-wide management of all your meeting room audio-visual systems.

All Ashton Bentley systems can be managed, monitored and controlled remotely by the absee suite of IP Management Tools. Real time dashboard view showing health of all main system components and what is connected, plus full operation metrics providing data such as hours of use and what laptop signals have been connected.

End

Ashton Bentley design and manufacture a range of Video Conference, Telepresence (just add Codec) and Presentation environments that simplify all aspects of deployment, operation, support and management. Fully integrated solutions out of a box, assembled in minutes with no tools. Saving you time, saving you money and making things simple. Ashton Bentley™ products are designed and manufactured in the United Kingdom.
