

Electrosonic Technology Showcase - Aberdeen 2013

Ashton Bentley attended the very successful Electrosonic Technology Day in Aberdeen, Scotland on May 16th.

The one day event was hosted at the Aberdeen exhibition and conference centre (AECC) with product demos and presentations covering a variety of topics and technologies.

Electrosonic's expert staff hosted a series of presentations showcasing how to increase meeting room adoption and productivity rates and how collaborative technologies and Microsoft Lync™ integration can increase business efficiency.

Ashton Bentley were on hand to present the Connect, an integrated presentation and video conferencing system. Staff from Ashton Bentley and Audio Visual Materials were on hand covering all of the benefits and features of this versatile product.

The product was received well, with a lot of customers praising the units clever design, flexibility and ease of use.

Ashton Bentley found the experience very worthwhile, and gave us a unique opportunity to exhibit our product range to the Oil and Gas, Corporate and Control Room markets.

For more information please go to the Electrosonic website for more information: <http://www.electrosonic.co.uk/tech-day-aberdeen>

END

Ashton Bentley design and manufacture a range of Video Conference, Telepresence (just add Codec) and Presentation environments that simplify all aspects of deployment, operation, support and management. Fully integrated solutions out of a box, assembled in minutes with no tools.

Saving you time, saving you money and making things simple.
Ashton Bentley™ products are designed and manufactured in the United Kingdom.
