

## All you need to know....

Ashton Bentley™ design and manufacture a unique range of integrated audiovisual presentation systems that are supplied as complete 'out-of-the-box' solutions with everything required.

In addition to providing superb meeting and presentation solutions, the systems are designed to accommodate most videoconference and telepresence technologies. All housed in an ergonomic, flexible and free-standing chassis that requires no skills, tools and building works. Easily assembled in minutes.

Replacing the traditional, time-consuming and complex 'installed' room systems, Ashton Bentley's complete environments can be purchased with one part number and delivered in a single shipment. Easy to use. Just plug your laptop in, or take a video call and the system turns on and configures itself ready for you to work.

**Simple to Purchase**  
Order as one complete product 'off-the-shelf' from a single vendor

**Complete Solution**  
A complete integrated meeting room solution in one simple package. No additional components or services required

**Simple and Quick to Install**  
No tools or specialist skills necessary. Installed in a matter of minutes rather than days

**Simple & Intuitive to Use**  
No remotes, touch panels or complex controls. Semi-automatic operation reduces downtime in meetings. On-screen messages inform users when things are going wrong

**Studio Quality Sound**  
Professional quality active loudspeaker(s) provides crisp, clear speech during a video call and also allows a superb dynamic audio platform for multi-media presentations.

**Simple to Manage**  
IP management tools for remote support, fault diagnostics, utilisation metrics and control

**Simple to Maintain**  
Only four active components make maintaining and supporting systems exceptionally easy

**Future-Proof**  
Designed to accommodate virtually any hardware/software videoconferencing or telepresence technology

**Flexibility**  
Constructed from modular components, system formats can be adapted or easily relocated to suit a variety of room formats and sizes

**Adaptability**  
Ready to accept auxiliary equipment such as digital media players, network computers and TV boxes

**Total Cost of Ownership**  
Lowest total cost of ownership in class

**Environment**  
Industry leading green profile
