

Cisco MX Replacement Systems

Introduction

Ashton Bentley Chassis Display Mounts are officially Verified by Cisco

For over 15 years Ashton Bentley has redefined how meeting rooms are deployed.

Simplifying the process into 3 core building blocks, available individually or as complete Meeting Room systems:

- Chassis Display Mounts
- Meeting Room AV Technology
- Meeting Tables

Cisco MX Replacement Systems

The Ashton Bentley Chassis Display Mounts deliver the best MX Replacement Systems with many additional features and upgrade opportunities.

Display Mounts Explained

Overview

Integrate seamlessly with Cisco Room Bars and Kits.

Purpose-built steel and aluminium enclosures engineered for secure mounting of displays, videobars, cameras, and AV hardware. Flexible installation options and a range of accessories, with a modern aesthetic that enhances any meeting space.

- Direct replacements for legacy Cisco MX Series and Cisco Room Kits
- Compatible with all leading display brands
- Floor-to-Wall, Freestanding, and Mobile Base configurations
- Purpose-built mounting hardware for Cisco products
- Installation time typically under 2 hours per system
- Choice of acoustic front panel colours
- Available globally through a network of regional hubs

Quick installation

Only requires two non-specialist people for a few hours per room.

No custom room modifications necessary

Little, or no, building work or containment required. A flexible floor mount system supports your display, Videobar, and other AV hardware, while your device(s) is connected via USB or POE.

A single power plug and network socket are all you need.

Internal Space:

Room for 3rd party equipment.

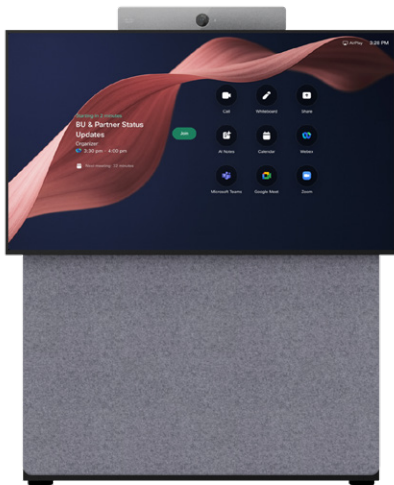

Mounting brackets available for Ashton Bentley AV Tech, Cisco Room Kit EQ & other hardware.

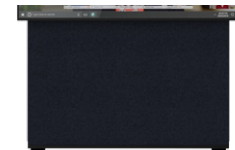

Front Cover Options

Standard - Charcoal grey
(To complement Cisco Carbon Black colour)

Optional - Clouds
(To complement Cisco First Light colour)

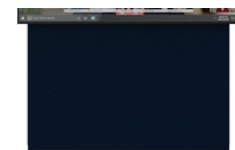

1. Standard Charcoal Grey

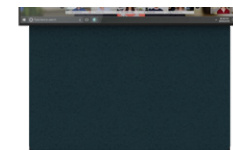

2. Black

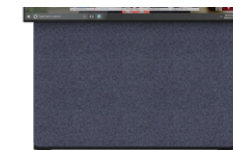

3. White

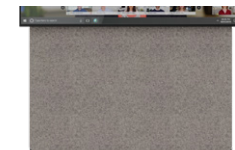

4. Nocturn

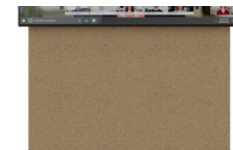

5. Eden

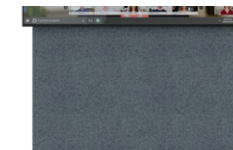

6. Slate

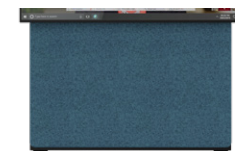

7. Natura

8. Sand

9. Misty Dew

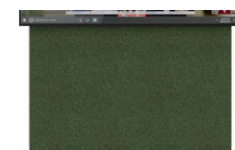

10. Neptune

11. Clouds

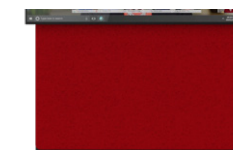

12. Oyster

13. Sage

14. Yellow

15. Red

Base Options

Floor-to-Wall - Standard.
Supplied with brackets to anchor to the wall.

The weight of the chassis/display/VC is on the floor, not on the wall.

Floor Fix (Option).
Simply attach to the Floor-to-Wall chassis. Anchor the system directly to the floor.

Freestanding (Option).
Simply attach to the Floor-to-Wall chassis. Ideal for placement against glass walls, in open spaces, and locations where building work isn't permitted or a non-permanent solution is required.

Mobile (Option).
Simply attach to the Floor-to-Wall Chassis.

Complete flexibility over location.

Integrator Supplied Components

- Cisco Room Kit EQ (or alternative Cisco product)
- Cisco Room Navigator
- 105" 21:9 Display

Express Install for Microsoft
Teams Rooms

Introduction

In addition to being a direct MX replacement, Ashton Bentley Chassis Display Mounts are approved by Microsoft for Express Install for Microsoft Teams Rooms.

They provide the easiest way to mount displays and Cisco equipment in any meeting space, with no custom room modifications required.

Compared to traditional installations, Ashton Bentley and Cisco Express Install solutions reduce complexity and total cost of ownership—allowing Teams Rooms to be deployed quickly and at scale.

The result is flexible, low-cost-to-change rooms, a consistent high-quality user experience across global estates, and meeting room systems that enable Cisco and Microsoft Teams to perform at their best.

Upgrades from Ashton Bentley

Options

AV Technology (DX2 Room Hub and TX2 Table Hub)

Mac and Windows compatible two-box solution providing AV infrastructure for meeting rooms. Simplifying table to display/VC connectivity with USB-C/HDMI/USB/Control over a single 35m Cat 6a/7 cable. Integrated signal routing and control that is simple to configure.

Interfaces directly with Cisco Webex Room Navigator, enabling presentation and BYOD control. Available in Cisco Control Hub for remote device and workspace management.

Designed for the latest video conferencing platforms, the solution replaces traditional AV racks with a compact, yet feature rich alternative.

Meeting Tables

AV ready tables, designed specifically for meeting rooms. Optimised for video collaboration and most room sizes. Integrated connectivity and power (regional) provide a clean work surface in a range of finishes.

Summary

Summary

Ashton Bentley systems are supplied through channel partners, who bundle our display mounts with displays and Cisco/Microsoft certified hardware.

This provides everything needed to install, set up, and activate a meeting room in hours, not days.

Optional Ashton Bentley AV Technology and Meeting Room Tables are available to complete the room when required.

All systems are designed for self-assembly, enabling fast, simple installation with no specialist tools or expertise.

Ashton Bentley started 15 years ago with a small group of like-minded people who believed meeting room AV could, and should, be simpler.

What once felt like a bold idea is now becoming the norm, with industry heavy weights endorsing and promoting our (we are not biased) excellent products!

It hasn't always been a smooth ride, but it's been a fun one—and it turns out we weren't as mad as we first thought.

Much more to come!
