ab. Ashton Bentley.

Introduction

Ashton Bentley Chassis Display Mounts are officially Verified by Cisco and Approved by Microsoft.

Over the last 15 years Ashton Bentley have developed and refined the way meeting rooms should be deployed.

Essentially commoditising key elements into 3 building blocks that are available individually, or combined as complete Meeting Room systems:

- Chassis Display Mounts
- Meeting Room AV Technology
- Meeting Tables

The Ashton Bentley Chassis Display Mounts allow streamlined, quick and easy installation options that deliver a full Teams Rooms experience

Optimsed to partner with Cisco for:

- Express Install for Microsoft Teams Rooms
- Direct replacements for Cisco MX Series

Chassis Mounts

Overview

Ashton Bentley designs and manufactures a range of modular Display Mounts for meeting rooms, optimised to partner Cisco Room Bars & Kits.

- Available globally through a network of regional hubs
- All leading displays can easily be mounted
- Direct replacements for previous-generation Cisco MX Series and Cisco Room Kits.
- Floor-to-Wall, Freestanding or Mobile Base options
- Dedicated mounting hardware for Cisco products
- Installation time >2hr per system
- Acoustic front panel colour options

Other configurations available with AV Technology and meeting room tables.
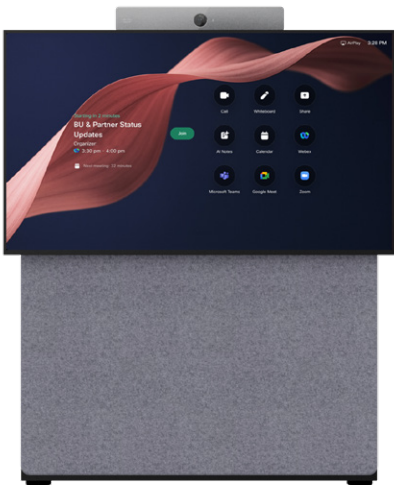

Internal Space:

Room for 3rd party equipment.

Mounting brackets available for Ashton Bentley AV Tech, Cisco Room Kit EQ & other hardware.

13. Sage

14. Yellow

15. Red

Base Options

ab.

Floor-to-Wall - Standard.
Supplied with brackets to anchor to the wall.

The weight of the chassis/display/VC is on the floor, not on the wall.

Floor Fix (Option).
When you want to anchor the system directly to the floor.

Freestanding (Option).
Simply attach to the Floor-to-Wall chassis.

Useful for placing in front of a glass wall; in free space; where no building work is allowed; non-permanent locations.

Mobile (Option).
Simply attach to the Floor-to-Wall Chassis.

Complete flexibility over location.

Express Install for Microsoft
Teams Rooms

Introduction

The Ashton Bentley Chassis Display Mounts are approved by Microsoft for their Express Install for Microsoft Teams Rooms solutions.

The best way to easily mount your displays (43" to 110") and Cisco equipment in any meeting space.

With no custom room modifications required, Ashton Bentley Express Install solutions are less complex than traditional installation methods, resulting in a lower total cost of ownership that enables you to get new Teams Rooms up and running quickly, and at scale.

Fully flexible rooms that also enable change at a low cost.

Excellent user experience that is repeatable, across buildings and global estates.

A meeting room system that enables Teams to be used to its full potential.

Simple to buy. Simple to install. Simple to Use.

The Solution

Quick installation

Only requires two non-specialist people for a few hours per room.

No custom room modifications necessary

Little, or no, building work or containment required. A flexible floor mount system supports your display, Videobar, and other AV hardware, while your device(s) is connected via USB or POE. A single power plug and network socket are all you need.

Suitable devices certified for Teams are already in the device ecosystem

All existing certified MTR devices can easily be integrated into Ashton Bentley solutions.

Full Teams Rooms experience

The inclusive and collaborative experience that users love about Teams Rooms are fully present with Express Install.

Scale-up meeting rooms fast at lower cost

With no custom room remediation, the total cost for Ashton Bentley Express Install rooms is usually lower than other solutions. This means you can install Teams Rooms at scale, making office modernization, and better workplace experiences,

AV Technology

Integration

Ashton Bentley AV Technology range includes a two-box solution that provides a complete audiovisual infrastructure for meeting rooms.

Simplifying the connection between the table and the display/VC. Providing USB-C and HDMI connectivity, signal routing and control. A complete meeting room solution.

Interfaces directly with Cisco Webex Room Navigator providing integrated Presentation and BYOD control. Appears in Cisco Control Hub device and workspace management admin portal for remote monitoring.

Designed to partner with the latest VC solutions, the boxes replace the traditional rack of AV equipment.

- Uncompressed 4K Video Transmission
- USB-C Extender & Connectivity
- Works with MAC and Windows laptops
- User-Friendly Configuration tool
- Comprehensive remote monitoring

Summary

How to buy

Ashton Bentley systems are supplied via our Channel Partners.

These partners bundle Ashton Bentley Display Mounts with displays and Cisco/Microsoft certified hardware.

Everything required to install, set-up and activate a Meeting Room system in hours not days.

The optional Meeting AV Technology and Meeting Room Tables from Ashton Bentley are available for complete rooms as and when required.

Ashton Bentley offers a well-established range of self-assembly products that enable quick and easy installation of Meeting Rooms with no specialist knowledge or tools required.

Summary

We have a full range of Collaboration Meeting Tables and AV Technology that can be combined with our Display Chassis to provide complete meeting rooms.

Just add displays and Cisco Room Bars and Kits.

We can work with the customer to produce packages that simplify all aspects of Meeting Room AV Technology and Tables:

- Purchasing
- Deployment
- Operation
- Support

Supplied Globally
