

Express Install for Microsoft Teams Room Bundles

From Ashton Bentley & Jabra

Meeting room solutions that deliver the full Microsoft Teams Rooms experience

Available from

What is an “Ashton Bentley Express Install for Microsoft Teams Rooms”?

Over the last 15 years Ashton Bentley have developed and refined the way meeting rooms should be deployed.

Essentially commoditising key elements into 3 building blocks that are available individually, or combined as complete Meeting Room systems:

- Chassis Display Mounts
- Meeting Room AV Technology
- Meeting Tables

The Ashton Bentley Chassis Display Mounts allow streamlined, quick and easy installation options that deliver a full Teams Rooms experience in Small and Medium sized meeting rooms.

This fits the Express Install for Microsoft Teams Rooms strategy.

With no custom room modifications required, Ashton Bentley Express Install solutions are less complex than traditional installation methods, resulting in a lower total cost of ownership that enables you to get new Teams Rooms up and running quickly, and at scale.

Fully flexible rooms that also enable change at a low cost.

A meeting room system that enables Teams to be used to its full potential.

The best user experience that is repeatable, across buildings and global estates.

Ashton Bentley:

Display Mount Chassis (55" to 75" Display)

The best way to easily mount your displays in any meeting space. Functional but also looks great.

Simple to buy. Simple to install. Simple to Use.

Jabra:

PANACAST 40 VBS Videobar

Turn even the smallest of meeting rooms into places where productivity and collaboration thrive.

See more. Hear more. Include more.

Ashton Bentley provides the ideal Express Install Solution.

- **Quick installation**
Only requires two non-specialist people for a few hours per room.
- **No custom room modifications necessary**
Little, or no, building work or containment required. A flexible floor mount system supports your display, Videobar, and other AV hardware, while your device(s) is connected via USB or POE. A single power plug and network socket are all you need.
- **Suitable devices certified for Teams are already in the device ecosystem**
All existing certified MTR devices can easily be integrated into Ashton Bentley solutions.
- **Full Teams Rooms experience**
The inclusive and collaborative experience that users love about Teams Rooms are fully present with Express Install. There may be an (improved) aesthetic difference between fully integrated Teams Rooms and an Express Install, but the same functionality remains.
- **Scale-up meeting rooms fast at lower cost**
With no custom room remediation, the total cost for Ashton Bentley Express Install rooms usually cost less than other solutions. This means you can install Teams Rooms at scale, making office modernization, and better workplace experiences, easier and faster to achieve.
