How to deploy neat in meeting spaces

Introduction.

Ashton Bentley has partnered with Neat, the Oslo-based pioneers of AI-powered video technology that is certified for Microsoft Teams and Zoom, to bring class-leading collaboration hardware into every meeting room.

Small Huddle rooms up to large meeting spaces. 3 to 15+ seats.

Our approach standardises collaboration spaces into three building blocks, deployed individually, or together as a complete room solution:

- Chassis Display Mounts
- Meeting Room AV Technology
- Meeting Tables

Displays and Neat equipment are supplied and integrated with Ashton Bentley by our channel partners.

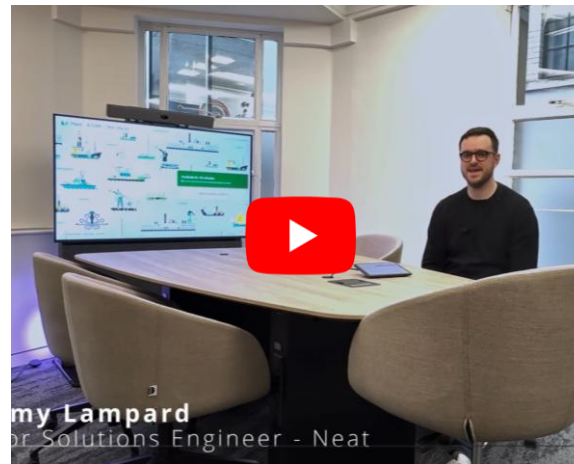

Neat Showroom London .

Ashton Bentley:

- Single 65” Display Mount
- AV Infrastructure Pack

How Ashton Bentley & Neat work together

- Express Install for Microsoft Teams Rooms
- Microsoft Surface Hub Replacement
- Room System Bundles

Microsoft Approved. Express Install Deployment.

Ashton Bentley's Display Mount Chassis, approved by Microsoft for Express Install for Teams Rooms, integrates seamlessly with Neat's intelligent, AI-powered Bars & Boards.

Quick installation

Two people, a few hours per room — no specialist trades.

No custom room modifications

Little to no building work. The floor-supported mount holds the display, Neat bar and AV equipment. Just one power outlet and one network connection needed.

Works with Neat Microsoft Teams Rooms devices

Compatible with certified Neat hardware, for easy deployment.

Full Microsoft Teams Rooms experience

The same functionality and collaboration features in a cleaner, more flexible install.

Scale quickly, at lower cost

No remediation means lower costs and faster deployment. Easier to standardize Teams Rooms across the organization.

Ashton Bentley Chassis Display Mount + Neat Board Pro

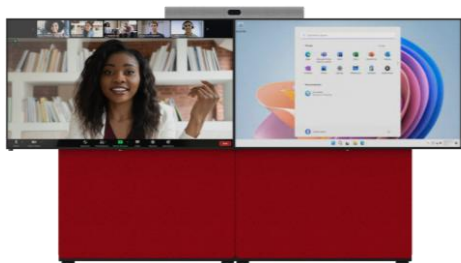

Benefits

- Choice of Floor-to-Wall, Freestanding or Mobile display mounts
- Concealed equipment storage with integrated power distribution
- Choice of front panel colours
- Consistent design across every meeting space
- Tool-less construction for fast installation
- Easy to upgrade with Ashton Bentley meeting tables

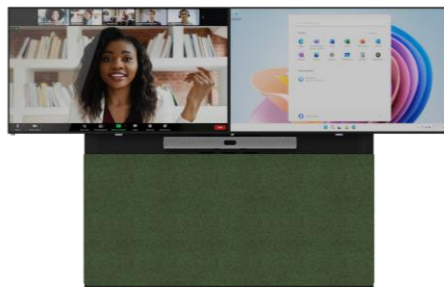

Example bundle: Dual 65" with neat.bar pro.

Display Mounts

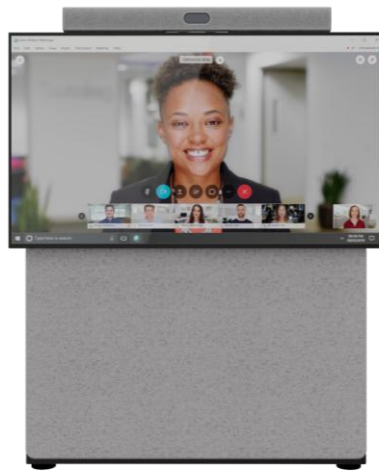

Acoustic Front Cover Options.

Front panels are located with magnetic fixings to make access simple.

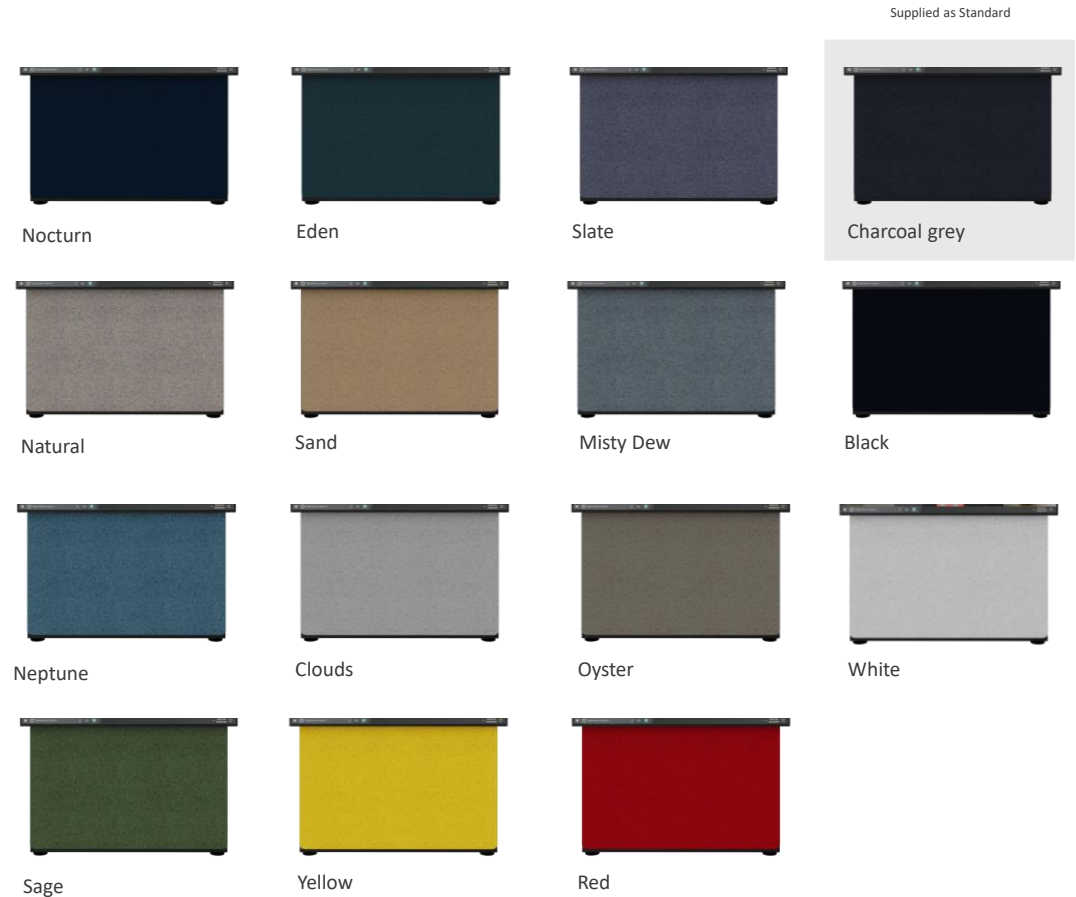

Standard
Charcoal Acoustic Front Panel

Example
Clouds Acoustic Front Panel

Options Acoustic Front Cover Colours.

Behind the Design.

Beneath the display is a concealed space for AV/IT equipment, with a range of optional mounting plates and brackets.

Designed for performance and convenience, installation and maintenance are carried out from the front by simply removing the magnetic acoustic cover.

VESA Bracket Kit
For 3rd party products.
Cable tie fixing points.

AB Equipment Bracket
For DX2 Room Hub & BX USB-C Breakout Hub.

With shelf to hold PSU.

Cable Lacing Bars
For better wiring runs, and secure connections.

Rack Mount Kit

Custom Mount Brackets

We can design brackets for most products that will fit inside the display mount chassis.

Base Options.

Floor-to-Wall Standard system.

Supplied with brackets to anchor to the wall.

The weight of the chassis/display/VC remains down on the floor, not on the wall.

Freestanding Option.

Simply attach to the Floor-to-Wall chassis.

- Place in front of a glass wall, or in free space.
- Ideal for non-permanent locations.
- Use in listed building where no building work is permitted.

Mobile Option.

Simply to attach to the Floor-to-Wall Chassis.

For manoeuvrability on site.

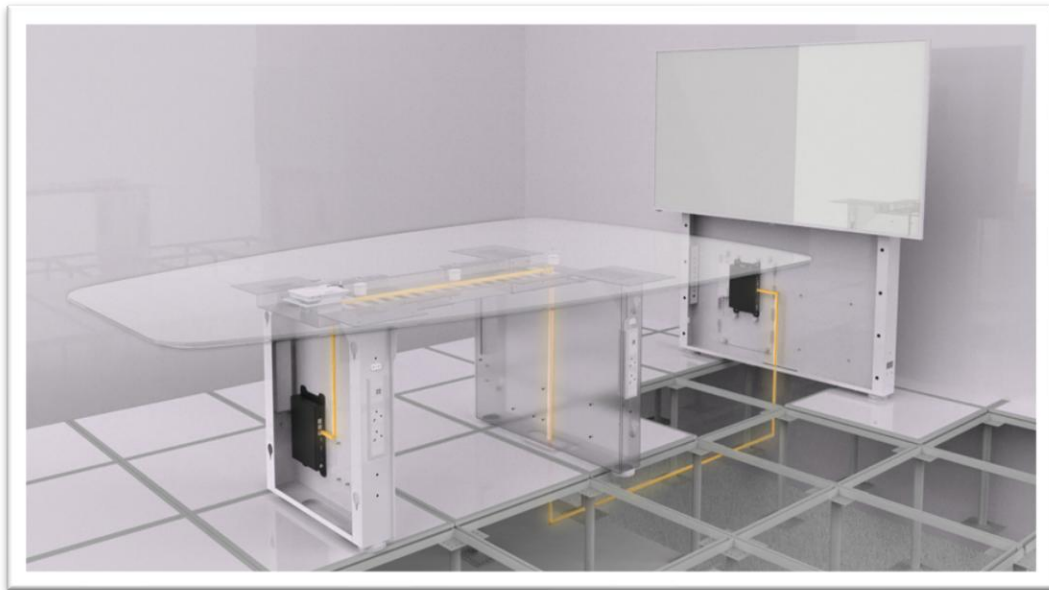

Floor Fix Option.

When you want to anchor the system directly to the floor.

Ashton Bentley started 15 years ago with a small group of like-minded people who believed meeting room AV could, and should, be simpler.

What once felt like a bold idea is now becoming the norm, with industry heavy weights endorsing and promoting our (we are not biased) excellent products!

It hasn't always been a smooth ride, but it's been a fun one—and it turns out we weren't as mad as we first thought.

Much more to come!
